

Investor & Shareholder Lunch

Disclaimer

This presentation contains forward-looking statements that refer to future events, future business development, and future financial developments. These rest on current expectations and specific assumptions by the CEO, a great number of which are outside the sphere of influence of EASY SOFTWARE AG.

Forward-looking statements comprise uncertainties, known and unknown risks and/or other factors that, individually or through their interaction, may cause the actual financial situation and/or the actual results, services or the like of the EASY Group to vary from that which was directly or implicitly expected in the forward-looking statements. The possible variations may also assume a significant scope here. Also, the underlying expectations by the CEO may not be reached or the assumptions may not have been correct; in this case, the actual results and successes of the EASY Group – both negative and positive ones – may significantly vary from the results that the forward-looking statements expressly or implicitly contain.

Factors that influence the actual development of the EASY Group are, for example, market development; general economic development in those countries and industries where EASY operates; competitors; winning/losing qualified employees; fluctuations in currency rates; changes to legislation or the regulatory environment including tax legislation; but also terrorist attacks, force majeure, acts of war, epidemics, civil unrest, development of the international financial markets, etc.

The EASY Group expressly warns against relying on forward-looking statements. These only reflect the opinion of the Management at the time of preparing this presentation. The EASY Group disclaims all liability for updating or following through these forward-looking statements.

Equity Story

End-to-end processes of your company digitized

For the next two years, German companies will focus primarily on the digital optimization of existing structures rather than on transformation.

Degree of digitization of end-to-end processes

Long-term business based on mega trends

Digitization

Good digitization means excellent User Experience

- Continuous customer feedback is the key to success
- Establish an ongoing feedback culture to optimize our processes
- Our X/O app measures the experience of customers, employees, suppliers and partners

Workflow

-70% Time to Market

Fast

Achieve our customers' digitization goals quickly and increase their innovation speed thanks to rapid prototyping. The aim is to create a prototype of a digital use case in hours or days.

EASY

Value Proposition

Experience-based

Our 29 years of experience in the digitization of business processes in large and small, national and international projects across all industries ensure that you can focus on the needs of your customers.

+60% Increase in use

Flexible

Flexibly develop new solutions for any frontend by using the Multi-Experience. Digital services can be easily supplemented and used in web and mobile applications as well as chatbots, voice assistants or AR and VR headsets.

Scalable

Adaptation to the size and tasks of our customers. Investment protection through the ability to grow and dynamically scale.

+200% Productivity

Result-/Value-driven

Develop solutions with our customers that not only focus on a sub-process, but also quickly generate maximum customer benefit and are convincing from the end user's point of view.

Five Reasons why to own EASY SOFTWARE Shares

- 1 We operate in a promising, **dynamic market** with high **growth potential**. Opportunity to increase market share and EBITDA margins.
- 2 We have a **strong and broad product and service portfolio** that allows us to respond to the needs of our customers in a user-oriented manner. New technological trends create the opportunity to invest into new products and to expand and develop new customer groups, markets and business models.
- 3 We have a **solid financial position** and an experienced **management team** in order to position EASY SOFTWARE sustainably, first class and successfully in the market. We execute on our forecasts.
- 4 We have deepened our **value chain** through **strategic acquisitions** and **disinvested on non strategic assets**.
- 5 We have a convincing strategy with **EASY 21 to achieve profitable growth** and **the ambition to accelerate the company growth**.

A high-angle, low-key photograph of a diverse group of people of various ages and ethnicities holding their hands together in a circle. The people are smiling and looking towards the center, creating a sense of unity and teamwork. The background is bright and slightly blurred, suggesting an outdoor setting. A semi-transparent white banner is overlaid across the center of the image, containing the text "Corporate Social Responsibility" in a blue, sans-serif font.
