EASY Solutions Complement MAIT Portfolio

What would a digital solution provider be without the broadest possible solution offering? What would a digital solution offering be without the broadest possible customer base? MAIT and EASY SOFTWARE complement each other in a strategic partnership to enable even more customers to achieve digital transformation.

As a value-added reseller, the MAIT Group is its customers' partner for state-of-the-art digital solutions in product development, enterprise control and IT service. The synergies with EASY SOFTWARE start with the word enterprise control. MAIT customers thus say goodbye to piles of paper. They receive support in making the leap to legal and data protection-compliant archiving, lightning-fast workflows, and limitless work with documents.
