

Excerpt from the specifications:

requirements: introduction of a contract management software

Is a migration of the data from the current storage system planned

Yes No

Do you already use a scanning solution for capturing the (signed) contracts?

Yes No

Artificial intelligence in contract management

Are you interested in AI services? Possible use cases in the daily work of your employees: AI simplifies and automates the creation of new contracts; manual entry and maintenance of metadata (deadlines, comments, amounts, contact persons, etc.) is no longer necessary.

Yes No

Do you need AI services in combination with workflows, e.g. for classifying incoming mail? You can use AI services to automatically recognize, assign and group letters, emails and other documents.

Yes No

AI services make daily work with documents easier, from summarizing and comparing contracts to much more. How would you like to use AI in your contract management?

Do you want to find contracts via full text search?

Yes No

If yes, does your scanning solution have automatic optical character recognition (OCR)?

Yes No

How many existing contracts do you have?

As a digitisation expert and leading ECM software manufacturer, easy has stood for legally compliant, digital archiving and efficient, automated business processes since 1990. Over 5,400 customers in more than 60 countries and all industries rely on our company and our strong partner network.

Our joint archiving, ECM, DMS, P2P and HCM software solutions & services form the digital centre for data-based intelligence and make people, companies and organisations successful. Well-known brands from our subsidiaries such as PROX-ESS and HABEL complement this offering.
